# PROTECT YOUR TEAM AND IMPROVE YOUR OPERATIONS

Creating a safe work environment is required for your employees' well-being and your business success. Machine Safety Australia (MSA) specialises in identifying potential hazards and implementing effective safety measures to mitigate risks.

---

## COMPREHENSIVE MACHINE SAFETY SOLUTIONS FOR WORKPLACE SAFETY

From initial risk assessments to implementation and safety validation, our TUV-certified safety engineers ensure a seamless process. Our end-to-end approach guarantees compliance, enhanced productivity, reduced downtime, and a safer work environment.

---

## SIMPLIFYING AS4024 COMPLIANCE AND WORKPLACE SAFETY REGULATIONS

Attempting to manage compliance without expert guidance can lead to costly mistakes, increased risk of accidents, and potential legal consequences. Machine Safety Australia handles all complexities, ensuring your safety systems are thoroughly assessed, designed, and implemented correctly.

# Working together with Machine Safety Australia

We simplify the process, taking the stress out of compliance so you can focus on running your business smoothly. With MSA, you're not just meeting standards – you're setting them.

## OUR MISSION

Machine Safety Australia (MSA) aims to support and guide businesses on their journey to achieve industry best practices in machine and process safety.

We believe in a one-team approach, bringing together experts in all the necessary disciplines to ensure practicality, compliance, and the most accurate systems and processes tailored to your unique requirements.

As your expert partner, you can be confident that your safety needs are met with precision and your business goals in mind.

## OUR VISION

At Machine Safety Australia (MSA), our vision is to revolutionise machine safety with seamless, end-to-end solutions that ensure the highest safety and compliance standards.

We strive to be the industry's leading innovators, providing everything from initial assessments and consultations to complete project execution.

Our goal is to eliminate the complexities and inefficiencies of managing multiple contractors by offering a single point of contact for all your machine safety needs.

We are committed to excellence and customer satisfaction, we aim to safeguard lives, protect assets, and enhance operational efficiency for every client we serve.

**When your team feels safe,  
they can focus on what they do best.**

# End-to-end Safety Solutions

## MACHINE SAFETY

- > Risk Assessments
- > Safety Requirement Specifications
- > Safety Concepts
- > Safety **Engineering/Design, Manufacturing & Installation**
